

### For flat-head printers

AW3 is a new generation wax quality product designed to meet today's varied and demanding printing standards. This improved general purpose wax quality offers superior mechanical and smudge resistance. It has been specifically developed to complement the new generation of Toshiba flat-head printers. Providing good, clear printed images of text and barcodes onto a wide range of labels stocks, from uncoated to high gloss papers and synthetics, it offers a blackness above 2.1 ODR and heat resistance up to 60°C (140°F).

AW3 replaces the older generation AW1 and, as with all Toshiba ribbon products, offers the best in printhead protection with its superior back coating.

**Toshiba AW3 ribbons – cost-effective labelling starts here.**

### Characteristics

Excellent multi-receptor compatibility	Good sensitivity
Improved blackness, sharper printed images	

### Specifications (Performances expressed in this sheet are for the black ribbon)

Ink	Type	Resin
	Melting point	75°C (167°F)
<b>Carrier</b>	Film thickness	<8µm (0.315mil)
	PET thickness	4.5µm (0.177mil)
	Tensile strength	>300 N/mm <sup>2</sup> (MD) (43,512 PSI)
<b>Back Coating</b>	Silicone product based	Friction coefficient Kd <0.2
<b>Colors</b>	● Black, ● Light green (Green C), ● Red (185 C), ● Blue (286 C), ● Gold (874 C)	
Ribbon is anti static build up treated. Storage: 12 months, 5-35°C (41-95 °F) 20-80% Humidity		

### Certifications and Approvals (For other standards, please contact us)

<b>LFGB</b>	Food contact (Europe)		1935/2004/EC
<b>Heavy metals</b>	EC 98/638.		
<b>Ames test</b>	The ribbon is not mutagenic, does not cause DNA modifications.		
<b>TSCA</b>	The ribbon does not contain any of the toxic substances mentioned in this list.		
<b>RoHs/WEEE</b>	EC directives 2002/65 and 2002/96. The compliance to the limitation of dangerous substances in electrical equipment.		
<b>EC Directives</b>	1999/45/EC. The ribbon does not contain any substance classified as dangerous for health.		

## Always Choose Toshiba Ribbons for Toshiba Printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

### Other Approved Ribbon Types Available

Standard applications	Wax	Wax/Resin
	Super wax resin	Full resin
Specialist resins for	Wash-care & textile labelling	Harsh chemical and industrial uses
	Extreme automotive and aviation environments
